

Brad Flanagan
National Manager
eProfiling

Dear Brad,

eProfiling compliance against the UEE07 Electrotechnology Training Package

Thank you for your letter dated 29 October 2008 where you provided EE-Oz Training Standards with a comprehensive specification on the eProfiling database product and how the reporting outcomes are linked to work performance specifications from the competency standard units contained in the UEE07 Electrotechnology Training Package.

I can confirm that EE-Oz Training Standards has reviewed the eProfiling specification in detail. I can also confirm that the reporting specification that eProfiling provided adequately satisfies the requirements found in the work performance specifications related to the competency standard units found in the UEE07 Electrotechnology Training Package.

EE-Oz Training Standards can therefore provide eProfiling with support that the eProfiling database is programmed to provide sufficient evidence against the following units of competency in the UEE30807 Certificate III in Electrotechnology Electrician qualification:

CSU Code	CSU Title
UEENECC020B	Participate in electrical work and competency development activities
UEENEEE001B	Apply OHS practices in the workplace
UEENEEE002B	Dismantle, assemble and fabricate electrotechnology components
UEENEEE003B	Solve problems in extra-low voltage single path circuits
UEENEEE004B	Solve problems in multiple path d.c. circuits
UEENEEE005B	Fix and secure equipment
UEENEEE007B	Use drawings, diagrams, schedules and manuals
UEENEEE008B	Lay wiring and terminate accessories for extra-low voltage circuits
UEENEEE033B	Document occupational hazards and risks in electrical
UEENEEG001B	Solve problems in electromagnetic circuits
UEENEEG002B	Solve problems in single and three phase low voltage circuits
UEENEEG003B	Install wiring and accessories for low voltage circuits
UEENEEG004B	Install low voltage electrical apparatus and associated equipment
UEENEEG005B	Verify compliance and functionality of general electrical

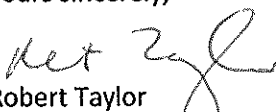

CSU Code	CSU Title
	installations
UEENEEG007B	Select and arrange equipment for general electrical installations
UEENEEG008B	Find and repair faults in electrical apparatus and circuits
UEENEEG009B	Develop and connect control circuits
UEENEEC001B	Maintain documentation
UEENEEC002B	Source and purchase material/parts for installation or service jobs
UEENEEC003B	Provide quotations for installation or service jobs
UEENEEC010B	Deliver a service to customers
UEENEED001B	Use basic computer applications relevant to a workplace
UEENEEE009B	Comply with scheduled and preventative maintenance program processes
UEENEEE020B	Provide basic instruction in the use of electrotechnology apparatus
UEENEFF002B	Lay and connect cables for multiple access to telecommunication services

I can also confirm that the eProfiling database reports contains information that cover many more of the competency standards found in the electives from the UEE30807 Certificate III in Electrotechnology Electrician qualification, and that Registered Training Organisation will be able to extrapolate data from the reports to satisfy these other competency standard units.

I trust that this letter of support will provide eProfiling with the required documentation to satisfy Registered Training Organisations that the eProfiling database products are providing quality workplace data for competency judgments.

Please contact me on (02) 6241 2155 if you require anything further in relation to this issue.

Yours sincerely,

 Robert Taylor
 Chief Executive Officer
